education

WELCOME TO THE FACULTY OF EDUCATION

The driving force behind York's Faculty of Education is the belief that where there is education, there is also a powerful transformation. As one of the largest Faculties of Education in Ontario, we strive to provide passionate, creative people with an inspiring environment in which they can cultivate their interests, gain the tools they need to motivate students and engage communities, actively contribute to the evolution of education and become powerful catalysts for change.

All of our programs are built on a solid ethical foundation and are infused with strong principles including equity, diversity, community, collaboration, interdisciplinarity and social justice.

Foster the skills of teaching, mentoring and learning

Education is future-oriented; it's about development and growth even when we are studying the past. Education is giving or receiving knowledge, developing the powers of reasoning and judgement, using inspiration, tapping into creativity, taking risks and developing emotional and intellectual resilience. In our society, we see education everywhere, and whether we teach others or are in the process of learning ourselves, education focuses on knowledge and on the intellect. Through the fine art of bringing out what may be latent in a person, we learn as we teach.

To foster the skills of teaching and learning, York offers a **Bachelor of Education** and a **Bachelor of Arts Educational Studies** program.

BACHELOR OF EDUCATION

We offer two teacher education program delivery models – Concurrent and Consecutive – leading to either a Bachelor of Education (BEd) degree or a BEd Technological Education and a recommendation for certification with the Ontario College of Teachers (OCT).

Our BEd program provides students with the knowledge and skills necessary to enter the teaching profession as confident and effective teachers. Highlights of our programs include:

- A commitment to diversity, equity and social justice infused throughout the entire program
- Engagement in local and global classrooms and communities
- Development of teaching practices that are responsive to the needs of diverse learners
- Engagement in professional discourse within the teaching profession

Concurrent BEd Program Delivery Model

Students complete two degrees at the same time at York University in order to become qualified teachers, which usually takes six years of study.

Students apply either directly from secondary school or as an upper-year (usually during their third or fourth year) York student; they work towards an Education degree while at the same time completing most other York undergraduate degrees.

Secondary School Applicants – To be considered for “Direct Entry” into the Concurrent BEd applicants need to complete two steps:

1. Be admitted to one of these eight Faculties/programs at York: Education (BA Educational Studies) • Environmental Studies • Glendon • Health • Liberal Arts & Professional Studies • Science • Lassonde School of Engineering • Arts, Media, Performance & Design

2. Submit an application and all required documents by the April 1, 2021 deadline.

Students begin their first year in the Faculty of Education after completing 90.00 credits of their York degree program.

Upper Year York Applicants – To be considered for the Concurrent BEd applicants need to complete two steps:

1. Be actively working towards an undergraduate degree in one of these eight Faculties/programs at York: Education (BA Educational Studies) • Environmental Studies

- Glendon • Health • Liberal Arts & Professional Studies • Science • Lassonde School of Engineering • Arts, Media, Performance & Design

2. Submit an application and all required documents through the Faculty of Education Office of Students Services via **MyFile** yorku.ca/myfile/ by the deadline.

Note: Students who enter in the BEd through the Direct Entry or Concurrent BEd program model will begin their first year in the Faculty of Education after completing 90.00 credits of their York degree program.

Consecutive BEd Program Delivery Model

Students who have already completed or are in the last year of their undergraduate degree, complete the BEd degree over two years of study.

To be considered for entry into the Consecutive model of the BEd, students must complete all admission application requirements by December 1, 2020. For program requirements and application deadlines visit: Ontario Universities’ Application Centre, Teacher Education Application Services <https://www.ouac.on.ca/teas/>

Diversity of Opportunities

The Faculty of Education at York University offers the most diverse undergraduate teacher education curriculum in Ontario, with both Bachelor of Education (BEd) and Bachelor of Education in Technological Education (BEd Technological Education) degree programs. We also offer opportunities in:

- French as a Second Language (FSL)
- Indigenous Education (Waaban)
- Jewish Teacher Education (JTE)
- Specialization in International Education

Students in the Intermediate-Senior divisions are able to complete qualifications in one of the most extensive ranges of teachable subjects in the province. For more information on any of these options, visit our website at <https://www.yorku.ca/edu/students/bachelor-of-education-bed/>

Placement Experiences

BEd students begin their practicum placement experiences in the first year with both a community placement and a school-based placement. These complementary placements develop students’ understanding of – and experience in – the wider context of K-12 education, reflecting the Faculty of Education’s foundational belief in the important relationship between schools and community.

Teaching Levels: BEd students must select one teaching level for their degree in order to obtain teaching certification. These levels will be reflected in their coursework and teaching credentials:

Primary-Junior: (grades JK-6) No subject specialization required.

Junior-Intermediate: (grades 4-10) One of the Junior-Intermediate teaching subjects required (see teaching subjects).

Intermediate-Senior: (grades 7-12) Two of the Intermediate-Senior teaching subjects required (see teaching subjects).

Technological Education: (grades 9-12) Specialize in one of the Technological Education teaching subjects (see teaching subjects).

TEACHING SUBJECTS

Junior-Intermediate

- Dance
- Dramatic Arts
- English
- First Nations, Métis and Inuit Studies
- French as a Second Language

POSSIBLE CAREER PATHS

- Teacher
- Principal
- Education Policy Analyst
- Corporate Trainer
- Instructor
- Learning Consultant

ACCESS INITIATIVE

Valuing Your Experience

The Faculty of Education at York University's Access Initiative is designed to recruit, admit and support individuals who will make excellent teachers and reflect the diversity of our society. Our admissions policies are designed to assess the potential of all candidates, including those who have faced systemic barriers in educational settings and in their lives. Through the Access Initiative, the Faculty invites students from underrepresented groups to apply.

For more information:

BACHELOR OF ARTS EDUCATIONAL STUDIES

The Faculty of Education's innovative Bachelor of Arts Educational Studies degree program provides students with a broad understanding of how and why people learn, and what role education plays in society today. Upon graduation, students will have the skills and knowledge needed to educate outside of the classroom and in roles that span all sectors.

Education thrives in all sectors, in roles such as corporate trainers, instructors, coaches, learning consultants, tutors, academic advisors and career counsellors; these professionals apply their knowledge of how and why people learn to contribute to their communities and succeed in their chosen fields.

Students in this program benefit from the Faculty of Education's strength in the study of education and York University's strengths in the Arts, Humanities and Social Sciences.

Students accepted into the Bachelor of Arts Educational Studies program may also apply for entry to the Concurrent or Consecutive Bachelor of Education programs.

Experiential Education

Students in the Bachelor of Arts Educational Studies participate in opportunities for learning through workplace-based placements in the community organizations as part of the degree requirements.

The Faculty of Education's workplace-based learning offers students an opportunity to put theory into practice in the field of learning and education. Students in the Bachelor of Arts Educational Studies program develop workplace-specific skills and enhance their professional networks.

Note: The Bachelor of Arts Educational Studies does not lead to teacher certification.

STUDY OPTIONS

1. Honours BA with a major in Educational Studies (no minor)
2. Honours BA with a major in Educational Studies and a minor in another Faculty
3. Faculty (double major option)
4. Honours minor in Educational Studies, taken in conjunction with another degree.

All of these study options take approximately four years to complete on a full-time basis.

POSSIBLE CAREER PATHS

- Education Policy Analyst
- Corporate Trainer
- Learning Consultant Developer
- Curriculum Developer
- Museum Director
